Gdje pronaći citate sivih publikacija?

Marijan Šember

Medicinski fakultet Sveučilišta u Zagrebu, Središnja medicinska knjižnica

Siva literatura

Examples of grey literature include:

technical or research reports
committee reports
market reports
conference papers
white papers
poster
pamphlet
conference presentations
blogs

emails
podcasts
government documents
speeches
preprint materials
theses and dissertation
newsletters
clinical trials
maps

Repozitorij Medicinskog fakulteta

<http://medlib.mef.hr>

The screenshot shows the top navigation bar of the repository website. It features two circular logos on the left: the University of Zagreb and the Faculty of Medicine. The navigation menu includes links for Home, About, Browse, Search, Help, Usage reports, and Upute. Below the navigation bar is a search bar with a 'Search' button. The main content area is titled 'Browse by Type' and contains a list of document types with their respective counts. The 'Thesis (732)' item is circled in red. At the bottom, there is a footer with information about the repository's power source and the EPrints software.

R Huzjan Korunić - 2011 - medlib.mef.hr

Aim of the study: to evaluate the sensitivity of targeted» second look» US examination and to analyze the spectrum of final PHD findings. -----Patients and methods: 242 patients with 282 MR lesions were included. MR findings were described as focuses, masses and «non-mass» lesions. For detailed characterization and final scoring BIRADS lexicon was used. US lesions were characterized as masses or «non-mass» lesions and also attributed BIRADS score. -----Results: 237/282 MR lesions had US correlate. More MR masses had positive US ...

M Cerovec - 2012 - medlib.mef.hr

Systemic lupus erythematosus (SLE) is chronic, non-infective inflammatory disease of unknown etiology. Course of the disease is characterized with phases of remissions and exacerbations with affection of different organs. Thus, clinical manifestations may be various. The disease is more often in women of fertile age. SLE is systemic autoimmune disease characterized with formation of different auto-antibodies and immune complexes. Disposable immune complexes damage tissue and organs (almost every organ can be ...

I Neraić-Meriga - 2007 - medlib.mef.hr

PURPOSE: The aim of this work is to estimate the prognostic value of preoperative chest computed tomography (CT) morphological characteristics in patients resected for non-small cell lung cancer (NSCLC) and classified as stage IA and IB. MATERIALS AND METHODS: 194 patients operated between 1996 and 2001, and classified as stage IA and IB of NSCLC, all patients underwent lobectomy or pulmectomy with hilar and mediastinal lymph node dissection. The chest CT imaging and clinicopathologic records were examined. We ...
