***Informacijska pismenost u
profesionalnoj karijeri
liječnika: praksa medicine u stoljeću
informacijskog preopterećenja***

Dr. Robert Likić

Medicinski fakultet Sveučilišta u Zagrebu

Informacijska pismenost u profesionalnoj karijeri liječnika: praksa medicine u stoljeću informacijskog preopterećenja

*Informacijska pismenost u profesionalnoj karijeri
liječnika: praksa medicine u stoljeću informacijskog preopterećenja*

*Matovinović fellowship 15.01. – 15.04.2009 University of Michigan
Health Centre, Ann Arbor, USA*

Informacijska pismenost u profesionalnoj karijeri liječnika: praksa medicine u stoljeću informacijskog preopterećenja

UMHS: integrirani akademski zdravstveni sustav

UM KBC

817 kreveta

1.6 milijun izvanbolničkih pacijenata godišnje

10,000 zaposlenih

UM Medicinski fakultet

1500 nastavnika

915 specijalizanata

690 studenata

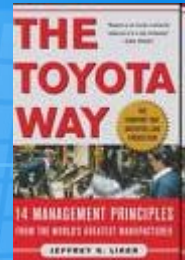

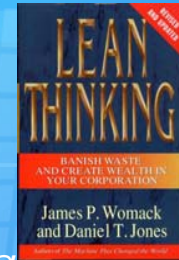

Informacijska pismenost u profesionalnoj karijeri

liječnika: praksa medicine u stoljeću informacijskog preopterećenja

Lean thinking

"The endless transformation of waste into value from the customer's perspective"

*---Womack and Jones,
Lean Thinking*

1./ Identificirati što pacijenti percipiraju kao vrijednost (brza, učinkovita klinička vizita)

2./ Identificirati produktivne korake u proizvodnji proizvoda, izbaciti neproduktivne (poziv>termin>dolazak>liječnički pregled>odlazak <> zauzeta linija>čekanje>gužva (čekanje)>administracija>krivi lijek)

3./ Osigurati neometano trajanje procesa proizvodnje (smanjiti/eliminirati čekanje, smanjiti potragu za lijekovima, instrumentima, osobljem, smanjiti/eliminirati transfer itd itd)

4./ Dopustiti korisniku da identificira vrijednost unutar sustava (pacijentu se izlazi u susret u pogledu termina pregleda)

5./ Težiti savršenstvu i kontinuiranom poboljšanj(medicinsko osoblje svaki dan razmišlja kako svoj radni proces poboljšati)

Informacijska pismenost u profesionalnoj karijeri liječnika: praksa medicine u stoljeću informacijskog preopterećenja

Gastroenterology - Mozilla Firefox

https://ctools.umich.edu/access/content/group/11558134-8728-46d2-a77d-dd55fb9833e4/course_topics_refs/topics/gastroenterology/topic_framesets

Gastroenterology [Objectives](#) [Case 1](#) [Case 2](#) [Case 3](#) [Print Cases](#) - Get References -

[Syllabus](#)

- Hemoglobin=14gm%
- Glucose (fasting)=210
- Liver chemistries: normal
- Cholesterol=310 (LDL=275)
- Triglyceride=400

Q1: Which of the following are appropriate next steps?

- [A.](#) Treat diabetes with an oral hypoglycemic agent and refer for diabetic teaching
- [B.](#) Increase the dose of atorvastatin
- [C.](#) Adjust his antihypertensive therapy
- [D.](#) Institute a weight reduction program
- [E.](#) Recommend upper endoscopy

[Click here for Dr. Nostrant's discussion of the question.](#)

Case #1 (continued)
The patient's diabetes is treated with glipizide ER 5mg daily and metformin 500mg twice a day. His fasting blood sugar was maintained at 115-140 mg%, and his hemoglobin A1c dropped from 9.4% to 6.0%.

Informacijska pismenost u profesionalnoj karijeri liječnika: praksa medicine u stoljeću informacijskog preopterećenja

The screenshot shows the Open.Michigan website. At the top left is the logo "open.michigan" and at the top right is the tagline "Connecting the". Below the logo is a navigation menu with links: home, about, community, education, projects, and contact. The main content area features a description of Open.Michigan as a University of Michigan initiative. Below this are several featured project cards, including one for "collaborators | Creative Commons: ccLearn" which includes the CC Learn logo and text about fair use. Other cards mention "OCW Consortium", "Hewlett Foundation", "U-M community | Dentistry", and "U-M community | School of Public Health". At the bottom of the page, there are tabs for "community", "education", and "projects", and a "featured" section with "recently added" and "go to community" links.
