|-------------------------------------------------------------------------------------------------------------------------------------------------------|-----|----------------------------------------------------------------------------------------------------------------------------------|------------------|
| Bone marrow stromal cells reduce low-dose cytarabine-induced differentiation of acute myeloid leukemia                                                |     | Smoljo, Tomislav; Tomic, Barbara; Lalić, Hrvoje; Dembitz, Vilma; Batinić, Josip; Bedalov, Antonio; Višnjić, Dora                 |                  |
| Cytarabine-induced differentiation of AML cells depends on Chk1 activation and shares the mechanism with inhibitors of DHODH and pyrimidine synthesis |     | Tomić, Barbara; Smoljo, Tomislav; Lalić, Hrvoje; Dembitz, Vilma; Batinić, Josip; Batinić, Drago; Bedalov, Antonio; Višnjić, Dora |                  |
| AICAr, a Widely Used AMPK Activator with Important AMPK-Independent Effects: A Systematic Review                                                      |     | Višnjić, Dora; Lalić, Hrvoje; Dembitz, Vilma; Tomić, Barbara; Smoljo, Tomislav                                                   |                  |
| 5-Aminoimidazole-4-carboxamide ribonucleoside-induced autophagy flux during differentiation of monocytic leukemia cells                               |     | Dembitz, Vilma; Lalić, Hrvoje; Višnjić, Dora                                                                                     |                  |
| Autofagija i metaboličke promjene u diferencijaciji staničnih linija akutne mijeloične leukemije                                                      |     | Dembitz, Vilma                                                                                                                   |                  |
| Inositol pyrophosphates modulate cell cycle independently of alteration in telomere length                                                            |     | Banfić, Hrvoje; Crljen, Vladiana; Lukinović-Škudar, Vesna; Dembitz, Vilma; Lalić, Hrvoje; Bedalov, Antonio; Višnjić, Dora        |                  |
| The mechanism of synergistic effects of arsenic trioxide and rapamycin in acute myeloid leukemia cell lines lacking typical t(15;17) translocation    |     | Dembitz, Vilma; Lalić, Hrvoje; Ostojić, Alen; Vrhovac, Radovan; Banfić, Hrvoje; Višnjić, Dora                                    |                  |
